Missling's garage rock rumbles with deep bass, explosive drums, a screaming guitar and soulful vocals though various rock spheres. Classic road-trip sound meets dark grunge. Pop elements flutter through the tracks, their music becoming a journey through moods and states which are unknown to few.

10 songs lead you through foggy suburbs, creepy mind-trips and yearning journeys. A UFO landing in the Arizona desert; strange noises coming from your neighbor's apartment... we follow our fears to the edge of the city, hand in hand with the devil – welcome to the creep show!

All tracks are the bands own compositions and reflect the various musical inspirations of each of the four musicians – from stoner rock to cool new wave.
